# Fire Safety Online Workshop

Settings continue to experience damaging fires, both locally and nationally, which can also pose serious risks to children and staff. **Don't let it happen to you!**

This course is designed to assist settings and employers to both prevent fires and meet the requirements of OFSTED and the EYFS in respect of fire safety.

It includes requirements of fire safety legislation – The Regulatory Reform (Fire Safety) Order 2005 – and official guidance published in support of this. Also, fire risk assessment and practical measures that need to be in place to keep children, staff and settings safe from fire.

***"Excellent, informative and worthwhile. Feel I have learnt a lot"***

NB: Risk Assessment and Health & Safety are covered in separate workshops.

# Risk Assessment Online Workshop

Incidents due to a lack of effective risk assessment still occur all too often in the childcare sector. As well as the need for overall effective management of health and safety, these issues highlight the requirement for effective risk assessment as an important element of ensuring health and safety for all in early years and childcare settings, and meeting OFSTED/EYFS requirements.

This session will assist settings and individuals to deliver effective risk assessments and considers:

- The main drivers behind risk assessment
- The balance of risk and benefit
- The principles and content of an effective risk assessment process

NB. Health & Safety and Fire Safety are covered in separate workshops.
