## 3.5 Physical and/or Sensory Needs – Multi-Sensory Impairment (MSI)

3.5.3a Need: When a CYP has an identified multi-sensory impairment (MSI) there needs to be a recognition that it is a disability which reduces the compensation usually available for the CYP with a single sensory impairment using the alternative sense. This will have an impact on the ability to communicate, move safely and process information. The majority of CYP with MSI will either be on the assessment pathway or have an EHCP in place.

Multi-Sensory Impairment (MSI)	Tick box
