KEY STAGE 2 SUBMISSION PROCESS - EXTRA INFORMATION

KS2 SUBMISSION DEADLINE – Tuesday 21st June

For KS2 Teacher Assessments, the DfE have stated that the LA should not request data from schools before midday Tuesday 21st June. This gives just 7 days for all schools to submit all their KS2 data correctly before the DfE cut-off. **However, there is no reason why schools cannot submit their data before midday Tuesday 21st June if all moderation has been completed, the data has been finalised, and is ready to send.** This will allow for the LA & schools to resolve any errors or omissions before the 28th June DfE cut-off.

To help to ensure that your data is correct, we will produce a provisional School Summary report for you to check, allowing you time to correct any errors to pupil's outcomes to Primary Assessment Gateway by 28th June (DfE final deadline). The DfE will take the data on 28th June and publish it in DfE Accountability documents (e.g. ASP/Inspection Summary Dashboard Reports) in the Autumn Term. Any school that has not submitted data by 28th June will have gaps and blanks in these DfE documents.

KS2 – TEACHER ASSESSMENTS 2022 - instructions [Key Stage 2 teacher assessment guidance - GOV.UK \(www.gov.uk\)](#): Schools are required to **assess all pupils in English writing and Science, providing a valid code for them. Schools must also assess pupils in English reading and mathematics where they are below the standard of the national curriculum assessments and provide a valid code for them**

PUPILS CHANGING SCHOOL DURING TEST WEEK

If a pupil changes school during the KS2 test week, the school where the pupil was registered at the **beginning** of the test week must submit TA data for the pupil.

Assessment Outcome

The Engagement Model

In 2021/22, if a pupil is working below the standard of national curriculum assessments and not yet engaged in subject-specific study, they must be assessed using the engagement model at the end of KS2.

The engagement model is a teacher assessment tool that replaces P scales 1 – 4 and is formed of 5 areas of engagement: exploration, realisation, anticipation, persistence and initiation. Each of the 5 areas are interrelated and should be used when assessing pupils who are not engaged in subject-specific study.

From September 2021, schools are required to:

- use the engagement model to assess pupils who are working below the standard of national curriculum assessments and not engaged in subject-specific study at the end of KS2
- report to DfE which pupils have been assessed using the engagement model for KS2 – schools are not required to submit any other data to DfE about the progress of these pupils
