Fire Safety

Settings continue to experience damaging fires, both locally and nationally, which can also pose serious risks to children and staff.

Don't let it happen to you!

This course is designed to assist settings and employers to both prevent fires and meet the requirements of Ofsted and the EYFS in respect of fire safety. It includes requirements of fire safety legislation – The Regulatory Reform (Fire Safety) Order 2005 – and official guidance published in support of this. Also, fire risk assessment and practical measures that need to be in place to keep children, staff and settings safe from fire.

Target audiences and cost

Childminders
Early years group settings
Out of school clubs
Committee members
Parent & toddler group leaders

£0 Fully funded

Training provider

Martin Lamb – CR Safety
Management

"Excellent, informative and worthwhile. Feel I have learnt a lot" (previous delegate).

NB: Risk Assessment and Health & Safety are covered in separate workshops.

Health & Safety Management

This course helps settings and individuals with health and safety duties to gain an overview and awareness of the main health and safety responsibilities and requirements applicable to early years settings.

Delegates will learn about the main elements necessary to promote and maintain safety in their settings, and the various legal requirements, principles and guidance that underlie these to help avoid major incidents and injury. Also, to assist in meeting the requirements of Ofsted and the EYFS.

NB: Risk Assessment and Fire Safety are covered in separate workshops.

Risk Assessment

Incidents due to a lack of effective risk assessment still occur all too often in the childcare sector. As well as the need for overall effective management of health and safety, these issues highlight the requirement for effective risk assessment as an important element of ensuring health and safety for all in early years and childcare settings, and meeting Ofsted and EYFS requirements.

This session will assist settings and individuals to deliver effective risk assessments and considers:

- The main drivers behind risk assessment
- The balance of risk and benefit
- The principles and content of an effective risk assessment process
